

SymphonyAI is an enterprise AI solutions company that focuses on acquisitions of software, data, analytics, and tech-enabled services companies. Started in 2017, SymphonyAI has grown rapidly to more than 2,200 employees operating across multiple vertical industries.

MISSION

- Build the leading enterprise AI company with solutions that drive revenue and profit growth across key vertical sectors
- Significantly accelerate growth through investments in sales, innovation, and talent
- Leverage our EurekaAI enterprise technology platform
- Grow each vertically-focused business unit to significant revenue scale, with a goal of building a rapidly growing \$1 billion-plus revenue company and delivering successful investment returns in five years

VALUE CREATION

A unique strategy that combines technology, operational expertise, and flexible capital to create the leader in enterprise AI.

- **Technology:** Next-generation, award-winning AI/machine learning technology stack and a talented team of more than 100 data scientists
- **Operational expertise:** Highly experienced investment partners and operating bench with successful track records
- **Flexible capital:** \$1 billion commitment by Founder and CEO Dr. Romesh Wadhvani

Core Values

CUSTOMER VALUE

We strive to be the trusted partner for our clients by delivering extraordinary value

INNOVATION

We are the most innovative company in every market we serve

TALENT

We attract and retain the best talent

Investments

SymphonyAI seeks acquisitions of companies where we see opportunities to invest in and grow the base business and develop innovative breakthrough solutions leveraging our proprietary EurekaAI machine learning technology platform. We are aggressively building a portfolio of businesses and solutions that address key vertical sectors, including retail, CPG, healthcare, life sciences, financial services, media, telecom, industrial manufacturing, logistics, defense, and government.

Value-Added Growth Platform

Ability to leverage strategic EurekaAI enterprise platform capabilities to rapidly innovate and significantly accelerate growth

Speed and Agility

Highly efficient, streamlined decision-making that allows management teams to focus on organic and inorganic growth initiatives without layers of decision-making

Independence

Vertically-focused business units remain autonomous with their own P&L responsibility while leveraging synergies where practical

Market Leadership

SymphonyAI is organized into two divisions – life sciences / healthcare, and commercial industries – that facilitate collaboration and synergies across markets with common needs. This structure accelerates growth and value creation to more than 5,500 SymphonyAI customers worldwide.

LIFE SCIENCES AND HEALTHCARE

Leader in AI for life sciences and healthcare, delivering precision solutions for cancer drug discovery / treatments and advanced visualization for medical imaging

COMMERCIAL INDUSTRIES

Leader in AI for retail, CPG, industrial manufacturing, financial services, and media, with solutions that improve revenue and profits and reduce losses and risk

Public Sector

Strategic AI partner for healthcare and non-healthcare public sector organizations, delivering insights and predictive analytics to reduce costs, control waste, and deliver efficiencies
